EDUCATION

Manav Rachna International Institute of Research and Studies

09/2022 – 06/2026

Bachelor of Technology in Computer Science Engineering

Faridabad, India

TECHNICAL SKILLS

Frontend: React.js, Next.js, Tailwind CSS, JavaScript

Backend: Node.js, Express.js, Firebase, Langchain

Tools & Others: Git, GitHub, Figma, Photoshop

Familiar With: GenAi, Google Analytics, SEO, C++, Next.js, Docker

Experience

Adquora

Remote

SDE Intern

09/2025 – Present

- Contributing to building Adquora's online presence from the ground up as part of the core tech team.
- Designed and developed the company's official website to establish its digital identity.
- Collaborating on upcoming product development to strengthen the startup's technology ecosystem.

KPMG India

Gurugram, India

Academic Trainee

06/2025 – 08/2025

- Worked in the **CRM & Automation** department, where I focused on optimizing internal workflows by developing multiple **Proof of Concepts (PoCs)**.
- Contributed to ongoing projects by designing workflows for an **internal AI bot** and assisted in its development.

FISU, MRIIRS

Faridabad, India

React Developer

06/2024 – 09/2024

- Developed a dynamic **React** application featuring real-time event updates, interactive venue navigation, and detailed schedules to elevate the championship attendee experience.
- Collaborated closely with web and mobile development teams to ensure seamless **feature consistency** and a unified UI across all platforms.

Projects

AuroraPlay — React.js, Spotify API, Gemini API

- Engineered a full-stack web application using **React** to deliver dynamic, weather-based music recommendations.
- Integrated the **Spotify API** to dynamically search for and curate playlists for users.
- Designed a **responsive, intuitive UI** that visualizes current weather conditions and presents curated music for a personalized experience. [GitHub](#) | [Live Site](#)

Essential Space — MERN Stack, MongoDB, Tailwind CSS, GenAi

- Built a full-stack space-sharing platform enabling users to create, store, and organize notes, links, and personal content, with the ability to share "space" publicly or privately.
- Integration of **LLM** to introduce **AI-powered search and summarization** for faster discovery of shared content. [GitHub](#) | [Live Site](#)

MockMate — React.js, Azure OpenAI, Tailwind CSS, Firebase Auth

- Developed an **AI-powered mock interview platform** using Azure OpenAI (**GPT-4o**) to simulate realistic interview experiences.
- Integrated **webcam posture analysis** with real-time feedback to enhance interview readiness.
- Implemented **PDF performance reports** for post-interview insights and improvement tracking. [GitHub](#) | [Live Site](#)

ACHIEVEMENTS

- 1st place in Code Sangam'24 organized by SGT University.
- 1st place in Design Blitz organized by FSCDC.
- 3rd place in 'Hacked – a – thon' hackathon organized by Jamia Hamdard.
- 3rd place in Innoverse'36 organized by SGT University.
